Welcome to Nicholsons

Nicholsons recognise that a 'one size fits all' approach is not appropriate for our clients, and we tailor our services to fit your individual circumstances and requirements. The 70-strong team at Nicholsons are dedicated to the success of you and your business. Our passion is to provide you with a professional, personal and high value solution to your day to day accounting needs. By getting to know you and your business we will become an indispensable member of your team, and look forward to celebrating your success.

Sounds Simple.....it is with Nicholsons!

Nicholsons are a forward thinking firm of Chartered Accountants and Business Advisors. We provide all of the services you would expect from a traditional accountancy practice but have the in house expertise to take a all-embracing approach to your business. We pride ourselves on giving you and your business the competitive edge whilst encouraging stability and generating growth in your finances. We provide our clients with a broad range of commercial services which are easily accessible and realistically priced. We are proud of our highly skilled and enthusiastic team who provide the experience of a large organisation with the approachability of a smaller personal advisor.

Established in 1923, and situated just off the A46 in our purpose-built premises, Nicholsons have a long history of supporting businesses across the East Midlands.

Our client base is hugely diverse and we pride ourselves in the assistance we offer the local community and economy.

With our roots firmly in the historic city of Lincoln we have a passion for ensuring local business success. We support the vision of the East Midlands being a top 20 region in Europe by 2010.

Our philosophy is to provide a high value service by:

- Providing quality services
- Aiming to continually delight our clients
- Making the time to really listen to the needs of our clients
- Suggesting ideas with the aim of improving profits and to help the business grow
- Providing professional expertise in order to help proactively identify opportunities and provide solutions

This is achieved by:

- Employing individuals qualified in their field
- Investing in training and I.T.
- Regular meetings, as requested by our clients, to discuss their needs
- Links to other experts to provide a all-embracing service
- Having accumulated 950 years of experience between us
